Sedimentary Geology 109 (1997) 365–366

Sedimentary Geology

Contents Volume 109, 1997

An urban model for dolomite precipitation: authigenic dolomite on weathered building stones
C. Rodríguez-Navarro, E. Sebastián and M. Rodríguez-Gallego 1
Facies characteristics of a proglacial turbiditic sand-lobe at Svalbard
I. Lønne 13
Multifractal characterization of microbially induced magnesian calcite formation in Recent tidal flat sediments
J. Kropp, A. Block, W. von Bloh, T. Klenke and H.J. Schellnhuber 37
Paleocurrent and fabric analyses of fluvial conglomerates of the Paleogene Noda Group, northeast Japan
K. Yagishita 53
Sedimentary facies in an extensional and deep-lacustrine depositional system: the Pliocene Tiberino Basin, Central Italy
G. Basilici 73
Calcareous tempestites in pelagic facies (Jurassic, Betic Cordilleras, Southern Spain)
J.M. Molina, P.A. Ruiz-Ortiz and J.A. Vera 95
A comparison of settling and sieve techniques for the analysis of bioclastic sediments
P.S. Kench and R.F. McLean 111
Late Quaternary lowstand wedges on the shelf margin and trough region of the Korea Strait
D.G. Yoo and S.C. Park 121
Detecting compositional, spatial, and temporal attributes of glaucony: a tool for provenance research
A. Amorosi 135
Slope-apron deposition in an Ordovician arc-related setting: the Vuelta de Las Tolas Member (Suri Formation), Famatina Basin, northwest Argentina
M.G. Mángano and L.A. Buatois 155
Eolian–fluvial interaction in the Page Sandstone (Middle Jurassic) in south-central Utah, USA — a case study of erg-margin processes
L.S. Jones and R.C. Blakey 181
Relationship between aerodynamic entrainment threshold and hydrodynamic settling velocity of particles
J.P. le Roux 199

Book Review
Sedimentary Rocks in the Field, by M.E. Tucker—C.R. Fielding 207

Sedimentary responses to sub-aerial felsic volcanism from the Late Devonian–Early Carboniferous northern Macalister Synclinorium, southeastern Australia
G.J. O'Halloran and A.J. Gaul 209
The use of protolith zircon-age fingerprints in determining the protosource areas for some Australian dune sands
S.D. Pell, I.S. Williams and A.R. Chivas 233

Differential early diagenetic low-Mg calcite cementation and rhythmic hardground development in Campanian–Maastrichtian chalk
N. Molenaar and J.J.P. Zijlstra 261
Seismic-stratigraphy of Shuswap Lake, British Columbia, Canada
N. Eyles and H.T. Mullins 283
Pennsylvanian continental cyclothem development: no evidence of direct climatic control in the Upper Freeport Formation (Allegheny Group) of Pennsylvania (northern Appalachian Basin)
B.L. Valero Garcés, E. Gierlowski-Kordesch and W.A. Bragonier 305
Petrology of late Paleozoic–early Mesozoic Pyeongan Group sandstones, Gohan area, South Korea and its provenance and tectonic implications
K.-M. Yu, G.-H. Lee and S. Boggs Jr. 321
The Karakorum Block in Central Asia, from Ordovician to Cretaceous
M. Gaetani 339

Book Reviews
High Resolution Sequences Stratigraphy: Innovations and Applications, by J.A. Howell and J.F. Aitken (Editors)—P. Wright 361
Advances in Fluvial Dynamics and Stratigraphy, by P.A. Carling and M.R. Dawson (Editors)—A.D. Miall 362
